Polytech France

Become a Polytech engineer in France !

Join a large network of graduate engineering schools in France and earn an engineering degree. The Polytech Group enables you access to excellent scientific and technological courses, working closely with companies and research laboratories.

A program from the Polytech Group

- ▶ 16 Graduate schools of engineering
- ▶ Intensive language courses
- ▶ French Engineering Degree

Polytech France is a 3-year-program:

- ▶ One year of immersion in French culture (intensive French language courses, cultural visits and visits to other schools in the Polytech Group...) and training in study methodology.
- ▶ Two years in the engineering cycle in one of the engineering schools in the Polytech Group.

Key Figures

- 16 graduate schools of engineering
- 5 partner schools : ENSIBS, ENSIM, ISEL, ESIROI and ESGT
- 12 scientific fields
- 130+ majors
- a network of 100 000+ Polytech Alumni
- 4 100 graduates every year

Application and Interview for Polytech France program

Graduate with a **Bachelor's degree** from your home country + **A2** level in french

1st year in France Preparation year at Polytech Marseille

2nd and **3rd** year in France in a Polytech school of your choice

Graduate with **Polytech Engineering Degree**

Program

A year of preparation in Polytech Marseille, Aix–Marseille University, France, to enter the engineering cycle.

Learn how to present a project in French, master technical vocabulary in your domain of studies, learn about French culture and work methods that are specific to the engineering profession.

- ▶ 1 semester of intensive French courses (from September to December): oral comprehension, oral and written expression.

- ▶ 1 semester of French courses methodology, project management and scientific tutorials (from January to May).

- ▶ At the end of the year, a B2 level in French is required to access the engineering cycle. You must succeed the TCF exam.

2nd and 3rd year of the engineering cycle in one of the 15 schools in the Polytech Group.
Choose the speciality you wish to study in total immersion with French students and work towards your degree.

- ▶ 2nd year: 2 semesters of courses in your speciality (Master's level 1).
- ▶ 3rd year: 1 semester of courses in your speciality (Master's level 2). 1 semester internship in a company, anywhere in the world.

Only Regular Program opened **FISE**

How to apply?

Prerequisites

- ▶ Bachelor's Degree or above.
- ▶ French level A2 minimum at the time of application

Application Procedure

The application can be downloaded at the following address : https://www.polytech-reseau.org/en/polytech-france-programme/

The completed application should be sent with the required documents by email to **PolytechFrance@polytech-reseau.org**

Pre-selected candidates will then be interviewed. Interviews will be through video conference

Schedule

- ▶ Admissions open in: October
- ▶ Admissions close in: 31 january
- ▶ Interviews for candidates: March and april

Programme Fees

Preparation year: 6000€ (courses, visits, travel and accommodation for one week of immersion in another school, administrative fees).

2nd and 3rd year engineering cycle: university fees (3,770 € per year)
